SKILLS

PROGRAMMING
Experienced:
JavaScript • TypeScript • HTML5 • CSS3

Frameworks/Libraries:
React.js• Redux • RTK queries • Material UI • styled-components • Sass • Jest

Familiar:
Node.JS • Python • Next.js • Git

TOOLS/APPLICATIONS
Visual Studio • Postman • Prettier • ESlint

OPERATING SYSTEMS
Windows • Linux

EXPERIENCE

SCALEREAL TECHNOLOGIES PVT. LTD. | SDE-1
May. 2022 – present | Pune, India

- Developed interactive maps using libraries such as Google Map API to display live bus locations, routes, and estimated arrival times, improving the overall commuter experience.
- Created a dynamic data-driven dashboard, facilitating real-time monitoring and proactive decision-making.
- Develop Python scripts capable of seamlessly adding over 100 driver, bus, and route details within a single script execution.
- Primarily used React JS, TypeScript, Styled Components, Nivo Charts, and Google Maps API for front-end development.

YUWAITING TECHNOLOGIES PVT LTD | SDE Intern
November 2021 – April 2022 | Bulandshahr, India

- Built reusable code for future use and Implemented Box Element Model (BEM) structure of CSS.
- Optimize pre-written logic in Javascript by implementing Suitable Data structure and algorithms per the use case.
- Understand client requirements and turn them into code whether in terms of UI or logical requirements.
- Troubleshot interface software and debugged application code to improve functionality.

PERSONAL PROJECTS

CRYPTO GLOBE | React.Js API Based Project

- Integrate chart libraries to showcase dynamic and interactive price graphs.
- Implement responsive design principles to ensure the application functions flawlessly across a wide range of devices, including desktops, tablets, and smartphones.
- Implement a news section that fetches the latest crypto-related news articles from trusted sources using Axios.

MOVIE-BOOKING | React With Typescript Project

- Integrate Axios library to handle API requests, ensuring up-to-date movie information.
- Effortlessly book movie tickets and select seats through our user-friendly web app.

LIVE DEV PORTFOLIO | React.Js Project

- An engaging and visually appealing personal portfolio website showcasing my skills, projects, and achievements.
- Primarily used React JS, Sass, react-draggable for development.
